Entered at the postoffice as matter of the second class.

"Aut Cochise, aut nullus," will be the cry of the Democratic county ring this fall.

For a paper that doesn't amount to much and isn't to last more than sixty days, THE REPUBLICAN is causing considerable commotion.

THE Citizen continues to devote considerable space to THE REPUBLICAN, mainly to twaddle and drivel, but all calculated to advertise our enterprise.

THE newspaper that will garble a newspaper extract and make it suit its purposes is not honest and unworthy of notice. We have reference to the Tucson Citizen.

So the plan is to multiply the candidates for county offices, in order to let down easy the fellows whom the ring will slaughter. Great scheme, but an old one.

WELL, trot out the figures that will show the funding bill "a monstrous steal." Bare assertions go for nothing. The people have had too much of this expert business.

THE Citizen contents itself with bare denials of its previous position on statehood. At our leisure we will go through its files and prove that its "bare denials" are on a par with its idiotic and suicidal political policy—perfectly dishonest.

It is believed that Governor Nichols, of Louisiana, will today veto the lottery bill. It will be a brave and manly stand to take, but the managers for the lottery company say they will be able to pass the measure despite the veto.

THE Tucson Star has discovered that the Federal election bill "will Mexicanize our elections." Just the reverse, it will make it possible for every citizen to cast his ballot and prevent two votes in the South to count for five in the North.

THE advertisers in THE REPUBLICAN not only receive more than double the circulation that any other paper affords, but reach the people every day in the year. During the past week THE REPUBLICAN issued seven editions to five by any other paper in Phoenix.

COMPLAINT is made that a health officer is badly needed in some sections of the city. THE REPUBLICAN understands that the office is vacant, since Dr. McGilchrist's elevation to the Mayoralty. If this is the case the office should be speedily filled, as the services of such an officer may be hourly needed at this season of the year.

The best speech this far made before the National Council of Education, now in session at St. Paul, was by a woman, Miss Conway, of Memphis, who conducts a private school. Upon the subject of the co-education of the sexes she argued in favor of exclusive education, as by that system it was easier to preserve and foster that essence which is called womanly.

THERE is one thing that the Republicans of this Territory will not forget, and that is that after the meeting of the Territorial Committee all the Republican newspapers in the Territory accepted in good faith the harmony there achieved save the Phoenix Herald and the Tucson Citizen. With these two papers personal pique and business jealousy ranked superior to party fealty.

"THE Cochise colony, of whom Zulick is the chief," said an old Democrat the other day, "is laying its wires to control this county, just as they once did Cochise county. Zulick is the detested instrument through which this control is to be obtained. All I have to say is, God help Maricopa county when they do get their fangs on the treasury here." This sentiment seems to be growing pretty steadily.

THIS is from the Yuma Sentinel: "The Phoenix Gazette of July 2 published a letter from Yuma signed J. M. W., which is a remarkable communication to say the least. The letter really must be read to be appreciated, as it only deals in glittering generalities, affirms nothing, and in fact is a delightful specimen of work of an innocent contributor who would like to bang some one on the head, but as usual the tyro succeeds in doing precious little good and absolutely no harm."

Is the burning of the fireworks stand last Friday the militia boys have incurred another debt of about \$50, the lumber having been only leased for the occasion. This will bring the deficit up to over \$100. Our citizens should contribute a trifle more coin to square matters, for the militia and fire department worked hard to make the day a grand success and should not be compelled to bear the unlooked-for expense. The celebration was not only, in the main, successful, but it was profitable to the city and its merchants. Several thousand outsiders were in attendance and the amount of money by them spent was not inconsiderable.

THE REPUBLICAN will not on its own account indulge in personal vituperation and abuse, and it will certainly not allow a correspondent to do so, and especially not behind the mask of a nom

de plume. We can conceive of nothing more contemptible than an anonymous attack on the private life or personal habits of any man by an anonymous newspaper scribbler. The anonymous correspondent is always a coward and generally a knave. This paper will never permit a correspondent to say that of a man which it is not prepared to publish editorially on its own responsibility. For this reason it destroys the communication signed "Democrat," and for the further reason that we quite agree with our contemporary that the fests is not a desirable adjunct to our social institutions.

PROFESSOR FARMER'S SALARY.

The Gazette is in error in stating that Professor Farmer's salary is in the same relation as other Territorial officers, who are and have been receiving their salaries.

The important and missing ingredient in the Professor's case is that he remained away and had never made a demand or attempted to exercise the duties of the office.

The Governor recognized this, and had Professor Long permitted him to have retained and submitted his warrants to the Attorney-General, it is more than likely that he (Long) would have had his money before this, as the Governor's refusal to countersign was as endorsed on the warrants: "Subject to the opinion of the Attorney-General." This he undoubtedly did in view of Farmer's possible claim.

The mountains surrounding this valley are white with limestone ledges, yet many a carload of California lime is used in this city. The masons have a prejudice against Arizona lime and use it only when compelled to. Mr. Haskin, the well-known maker of concrete pipes, gives THE REPUBLICAN the reason for this. He says: "The Salt River Valley lime is as fine as any in the world. Bricklayers do not like to use it on account of its cement character. It is harder to handle than Santa Cruz lime, but when once put in a wall will last forever. You may crack the brick, but the mortar will not yield to anything less than a sledgehammer. Look at J. Y. T. Smith's cobblestone warehouse. It is put together with Tempe lime, and if another door will ever be needed in its walls, the granite boulders will yield to the gad much quicker than the lime will." H. R. Leonard, the architect, confirms Mr. Haskin's statement and adds that whenever an especially staunch stone or brick house is desired, he will always specify the local lime to be used. "It is especially superior for foundations," he said, "for in damp places under water it solidifies to the hardness of adamant."

FATHER BERNARD O'REILLY arrived home in New York yesterday. He left this country eight years ago to champion the Irish question in Rome, and faithfully defended it at the Vatican. Monsignor said, on being interviewed, that the English are making every endeavor to influence the Vatican on the Irish question, but the friends of Ireland are constantly on the lookout, and thus far, with the aid of the Pope, have managed to hold the upper hand. There is no doubt that immense pressure was brought on the Pope, and once or twice he has been on the verge of yielding as against the faithful and loyal children of the Church in Ireland.

ESPECIAL remark is made by visitors to this valley upon the superior class of the honey produced. Unlike the Eastern article, sickness never follows its hearty consumption. Clear, delicious, cheap and healthful, it is held in high esteem by all. There are several grades of honey produced, however. The best is that obtained by the bees from the flowers of the mesquite, for which, when in bloom, they leave all other food. The mesquite honey is pure and white in color and of exquisite flavor. The bees also extract sweetness from "flowers that bloom in the spring," from the blossoms of the sage, the fruit and flowers of the cactus and a hundred other sources. Late in the season the main dependence is on the bloom of alfalfa, which gives to honey a darker color and a stronger flavor than the earlier products. It is all good, and the local society of bee men are taking steps toward shipping it abroad in large quantities.

THIRTY YEARS ago there was one riding school in New York City, says a correspondent, and not more than 200 regular riders, of which the large majority were men. Now there are six public and one private school with 2000 or more trained saddle-horses and between 4000 and 5000 riders, with a large average of ladies among the pupils, and a galaxy of counts and barons and gracious, courteous gentlemen from Europe as riding masters. Riding is in the city an expensive luxury, particularly for a lady who must buy before being really equipped for her first lesson a habit of dark cloth, which costs at the lowest \$50, and a great deal more if made by a tailor and fitted while she sits a real live horse, as most of the best habits are, a tall silk hat or derby, a pair of jersey knickerbockers, boots of finest patent leather at \$10 to \$20 a pair, and a crop valued at anything from \$1 to \$30. Here is a luxury that the women of Arizona can enjoy at a minimum of cost, nearly every day in the year, in the most delightful and bracing of atmospheres. With the minimum of cost comes the maximum of pleasure and benefit.

A FASHION writer says that if you have pretty wrists, then you may with the utmost propriety girdle them with gold or precious stones. If your wrists, however, belong to the class commonly known as "scrawny," it will be wiser to leave them undecorated, to have your sleeves made pretty long, and to realize the value of a frill of lace or mousseline de soie coming well over them and so making them, after the Chinese fashion, look smaller. In the art of dress, it may be accepted as a fact that a decoration always attracts attention, and no one

can afford to draw the eye of the looker-on to whatever is imperfect; hence the advantage in covering rather than ornamenting a wrist that is not beautiful.

FIRST CLASS swimming baths along the river bank, with cheap and regular means of getting there, would prove a profitable investment.

DOING GOOD WORK.

Fruit of Dr. MacLennan's Labors in Phoenix.

THE MOST STUBBORN DISEASES YIELD.

Spontaneous Testimonials from Well Known Citizens of the Salt River Valley.

A reporter overheard, on Washington street, yesterday, a conversation that interested him greatly. Peter Rasmussen, a well-known farmer located a few miles below Phoenix, was replying to the congratulation of a friend upon his very apparent improvement in health.

"Yes," said Mr. Rasmussen, "my condition of comparative health is indeed wonderful, when it is considered that but a few weeks ago I was but a physical wreck. With kidney and liver deranged to such a degree that physicians had practically given me up as incurable, I lost all hope and made my will with the full expectation of dying within a short time. While I was in this condition of mind and body, Joe Gilmour came to me and counseled that I visit Dr. MacLennan. I expressed the opinion that my case was beyond the reach of human skill, but he persisted and fairly packed me off to see the Doctor, telling me on the way of the almost marvelous manner in which he himself had been cured. The first treatment at the hands of Dr. MacLennan gave me strength and hope and today I am well. I cannot speak in too high terms of the physician who has done all this for me. His work is marvelous and every day I hear of cases of sickness equal to mine in severity that have yielded to his skill."

GILMOUR'S EVIDENCE. Pursuing the subject the reporter called around on Mr. Gilmour. He is a member of the thriving firm of Gilmour Bros., blacksmiths, whose extensive shops occupy the southwest corner of Center and Adams.

In response to a query relative to his recovery from sickness, he emphatically said: "I owe my restoration to health to the treatment I have received from Dr. MacLennan. For two years I had suffered from Laryngitis until my voice was lost to that extent that I could not speak above a whisper, my general health was undermined, and I was going fast on a decline. I tried everything—doctors, the Hot Springs and all—and nothing seemed of any use. Shortly after Doctor MacLennan came here, I placed myself under his care. Today, I feel better than for years past, my throat trouble has disappeared, and I can yell like a cowboy."

Continuing his investigation, the reporter called on the Doctor himself, at his parlors on the second floor of the Monihon building. The reception room was found crowded with ladies, while on the balcony were seated a number of men awaiting their turns.

The reporter retired to await a more favorable time for securing an interview with the Doctor, and, meanwhile, engaged in conversation with Hon. J. D. Monihon, Chairman of the Board of Insane Asylum Directors, whose office adjoins that of the Doctor. "There seems to be a continuous stream of people," said Mr. Monihon, "pouring into the next room all day long. They are afflicted with almost every ill that flesh is heir to; but I hear from them as they go away, nothing but the highest praise for Dr. MacLennan, and confident hopes for complete recovery. I know, personally, of a number of extraordinary cures he has made, that show him to be a most able physician."

A CASE OF PARALYSIS. When opportunity offered admittance was gained to the operating room, where a cordial greeting was received from the Doctor. He was working upon a patient under treatment for paralysis. The mode of treatment seemed to be a combination of electricity, massage and medicinal applications.

The gentleman being operated upon is named Laurence Wentling. During a short absence of the Doctor he grew enthusiastic in his praise of the treatment received.

"Just four years and three months ago," he said, "I was mining on Lynx creek, near Prescott. One morning on arising I was stricken as quickly as though a bullet had hit me with paralysis in the right side, arm and leg. I was taken to Prescott and have since spent in Physician's fees alone over \$700. I was at Castle Creek Hot Springs when I heard that Dr. MacLennan was in Phoenix and took the earliest opportunity of coming down and consulting him. I have been under his care for two weeks and see"—he raised his arm above his head—"I can use my arm without trouble and am able to walk without crutches. I am deeply grateful for the good that has been done me, when recovery seemed out of the question."

SPINAL TROUBLE CURED.

Another patient whose treatment was witnessed was G. K. Smith, the cleaner and dyer, whose shop is located on Cortez street, opposite the Monihon block. He has been troubled for several years with what the Doctors called Sciatica and for five months past has been unable to do any work at all. He placed himself under Dr. MacLennan's care about ten days ago, when it was discovered that his ailment was a curvature of the spine, caused by the wasting away of the tissue between the vertebrae of the lower portion of the spinal column. He is now much improved. His back is regaining its suppleness, showing that the natural oil is once more being secreted and he confidently expects an entire cure before the Doctor leaves.

Dr. MacLennan is a man of fine physique, with every indication of strong natural magnetic power. He ascribes his success in the treatment of the chronic diseases that are brought to him to the improved methods he uses and to the superior apparatus he brings to his aid. Those who need his services should not delay seeing him, for Phoenix cannot hope to long retain him.

HOTELS.
THE MOST DELIGHTFUL SUMMER SEASIDE RESORT.
CORONADO.

With its agreeable marine atmosphere here is the natural change for Arizonans to take during the summer months, and every one can afford to visit it for Health, Rest or Pleasure. It is in the most charming marine climate in the world, and has

The Largest and Most Magnificent Hotel,

Where you have the most perfect service, at the lowest rates. Coronado, with its surroundings, is the ideal summer seaside resort, with an atmosphere ever soothing and restful, being constantly fanned by breezes from the ocean. Outdoor and indoor Amusements in Every Variety.
